QUINCY

COMPILED BY H. A. MANNING COMPANY WITH THE ASSISTANCE OF QUINCY CHAMBER OF COMMERCE.

The publishers of this Directory consider it advisable and desirable to set forth the following paragraphs, in as simple and attractive a manner as possible, to enable the readers of these descriptive pages to comprehend as many of the outstanding features of Quincy as limited space permits. The local resident, the visitor, and the distant reader about Quincy, wishes to gain an impression of Quincy as well as to have at hand a statistical reference regarding the city and its people. It is the publisher's aim to portray as much of Quincy's charm and greatness as is consistent with facts. We believe with John Cotton Dana, the great librarian, that "Good citizenship springs from a knowledge about one's own community." The teachings of the City Map and the City Directory about localities, districts, street locations, street changes, growth of sections and general city changes are of great importance to property owners, old residents, new residents, and school children. Racial characteristics of names in the Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants of the city and many other educational facts. Notable men all through history have contributed their philosophy as to the value of knowledge about the home town. Here is one from Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." In studying the following remember that the Quincy City Directory disseminates this information far and wide where this Directory represents Quincy in the Free Directory Library Exchange System of North America. The Quincy City Directory, with nearly 800 closely printed pages, is the City of Quincy in book-form; its family and social life, business and industrial life, is portrayed in great detail. The publishers invite and accept constructive criticism and suggestions for the improvement of the Directory for the benefit of Quincy and all interested.

LOCATION—Quincy lies on Quincy Bay, which is off the larger Massachusetts Bay, forming the excellent harbor that has had so much to do with the shipping importance of New England. Quincy is strategically situated for residence and business, only seven miles from the heart of Boston, with which it is closely connected by business and social ties. Distances from Quincy are: New Bedford 47 miles, Providence 43, Worcester 43, Lowell 33, Concord, N. H., 96, Portland 118, Bangor 268, Springfield 105, Albany 186, Schenectady 205, Hartford 115, New York 223, Greenfield 105, Elmira 391, Atlantic City 359, Buffalo 506, Philadelphia 318, Rochester 409, Burlington 223, White Mts. 187, Washington 454. Gateway to Cape Cod.

HISTORICAL—Quincy was settled as a trading post in 1625 by Capt. Wollaston. In 1640 it became a part of the Colony of Massachusetts. It was originally a part of the township of Braintree from which it was set off in 1792 and made a town, to which the name of Quincy was given. In 1888 it was incorporated as a city with Charles H. Porter as the first Mayor. Quincy is exceptionally noted as the birthplace of two presidents of the United States; also other distinguished persons. The birthplace home-
stead of John Adams, second president, was built in 1681, and restored in 1897 by Adams Chapter of D. A. R., and is located on Franklin Street. Birthplace of John Quincy Adams, sixth president, was built in 1716 and restored in 1896 by Quincy Historical Society and is located on Franklin Street. Birthplace of John Hancock, Adams Street where a bronze tablet marks the spot where the house stood in which this patriot was born. Abigail Adams Cairn, Penn's Hill off Franklin Street, marks the spot from which Abigail Adams and her son John Quincy Adams watched the smoke of the Battle of Bunker Hill. Burial places of John Adams and John Quincy

Birth Places John Quincy Adams and John Adams

Adams and their wives are under the Stone Temple of the First Congregational Church at Quincy Centre. In the Auditorium are mural monuments to the memory of the Presidents. President Adams mansion is located on Adams street corner of Newport avenue, and is still occupied by the Adams family. Dorothy Q. House, on Hancock Street corner of Butler Road,

is the old Quincy homestead where Dorothy Quincy was born; the parlor has old paper put on for the wedding of Dorothy Quincy and John Hancock; this property is owned by Massachusetts Society of Colonial Dames. The Myles Standish Cairn is in Squantum district and marks the site of the landing of Myles Standish, Sept. 30, 1621. The old Hancock Cemetery located on Hancock Street, opposite First Church, is the cemetery where lie buried many of the first settlers of Quincy, including Rev. John Hancock, father of the patriot. The site of the first railroad in the United States is at West Quincy, built in 1826 to convey stone for Bunker Hill Monument from quarries to tide water on Neponset River. The foregoing historic points are all open to the public.

TOPOGRAPHY—Quincy has an unusually beautiful and interesting topography. The altitude varies from sea level to 480 feet in sloping terrain. The average altitude in the business and residential sections is 25 feet in the lowlands. The Blue Hills Reservation is partly in Quincy and constitutes a delightful variation from the low land of the sea shore. It is probable that the topography of Quincy surpasses in beauty and variety that of any other city in Massachusetts, combining sea, headlands, shore and hills. The residential districts extend into the highlands from which views of the lower parts of the city and the bay may be had. Much of Quincy's charm for residences is its highland home sections. From the Blue Hills it is possible to see much of Boston and the Metropolitan area. Quincy has the attractiveness of the "South Shore" which leads to incomparable Cape Cod. Area 16.77 square miles.

Local trolley and bus lines serve all parts of the city and connect with adjacent cities and towns. Motor truck freight service is extensive. High ways 3, 135, 3A, 37 lead to the city and are high class construction. Quincy has a harbor for large and small shipping, and at Fore River has one of the large dry docks of the country. When You Place Your Ad in the City Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.

«GRANITE RAILWAY COMPANY»

INCORPORATED 1826

Showing Gateway to our quarry and on the left, part of the original First Railway in America

Early in 1823 a group of prominent citizens deeply interested in the erection of a suitable memorial on the scene of the Battle of Bunker Hill formed an Association for that purpose. While the board of directors were engaged in devising plans to obtain the wherewithal to build, Solomon Willard was seeking a suitable material with which to construct the obelisk. He spent much time and effort, walking in all about three

hundred miles, to examine granite quarries, finally deciding on one in Quincy where stone of sufficient size could be obtained.

Some method of transporting the stone from the quarry to the Neponset River must now be provided. Gridley Bryant, a civil engineer, conceived the idea of building a railroad for the easy handling of the stone. After much opposition a charter was granted by the Massachusetts Legislature to the Granite Railway Company in March 1826. Work was started at once and completed in October of the same year. Today part of the "First Railway in America" may be seen on the property of the Company at West Quincy.

Producers of Extra Dark Quincy Granite

Unexcelled for

Polished Memorials and Modern Buildings

Extra Dark Railway Granite from the quarries of the Granite Railway Company of Quincy, Massachusetts, makes an especial appeal to architects because of the beauty of its rich dark coloring. Granite Railway stock takes a brilliant mirror-like polish, disclosing the beautiful texture of the stone, protecting the surface from discoloration and insuring the greatest permanency. It is especially adapted for the belt course or lower stories of modern office buildings and makes a most harmonious contrast when used with limestone or some of the lighter granites.

WHEN ORDERING, SPECIFY RAILWAY STOCK

Phone Granite 8700 for the Answers to Every Heating Problem

When You Place Your Ad in the City Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be **WEAK**? We believe there is only one business answer to this.
